Celtra® Ceram
All-Ceramic Veneering Porcelain

Versatility that delivers

Versatility that delivers

Celtra Ceram introduces the versatility of a single veneering system designed exclusively for all-ceramic substructures including lithium silicates and zirconia oxides.

- + Versatile concept
- + Premium aesthetics
- + Consistent performance

Celtra Ceram is suitable for veneering all-ceramic frameworks.
Coefficient of Thermal Expansion (CTE): $9.0 \times 10^{-6} \text{ K}^{-1}$ (25-500°C)

- + Celtra Press, Zirconia-reinforced Lithium Silicate (ZLS) frameworks: $9.7 \times 10^{-6} \text{ K}^{-1}$ (CTE 25-500°C)
- + Lithium Silicate frameworks: $10.0 - 10.5 \times 10^{-6} \text{ K}^{-1}$ (25-500°C)
- + Cercon® ht frameworks: $10.5 \times 10^{-6} \text{ K}^{-1}$ (25-500°C)
- + Cercon xt frameworks: $10.1 \times 10^{-6} \text{ K}^{-1}$ (25-500°C)
- + Zirconia frameworks: $10.1 - 11.0 \times 10^{-6} \text{ K}^{-1}$ (25-500°C)

EXCEPTIONAL PERFORMANCE

For incredibly stable results

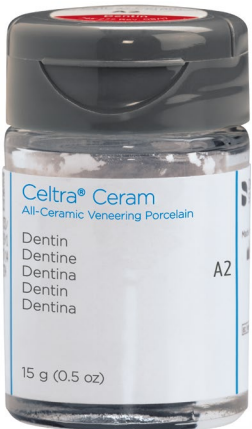

A proprietary feldspathic base formulation delivers an incredibly stable and robust result – every time, even after multiple firings

SHADE CONFIDENCE

For lifelike, reproducible veneerings

Out-of-the-bottle shade accuracy: Fewer remakes, improved consistency

Smart System

Celtra® Ceram masses reflect a smart system with basic and advanced powders offering versatility in the laboratory without the expense of comparable oversized systems.

+ Dentins

- 20 final shades (bleach/A-D)
- 26 Shade Series shades*
- 6 Power Dentin (PD) shades
- 9 Dentin Effect (DE) colors
- 5 Dentin Gingiva (DG) shades

+ Enamels

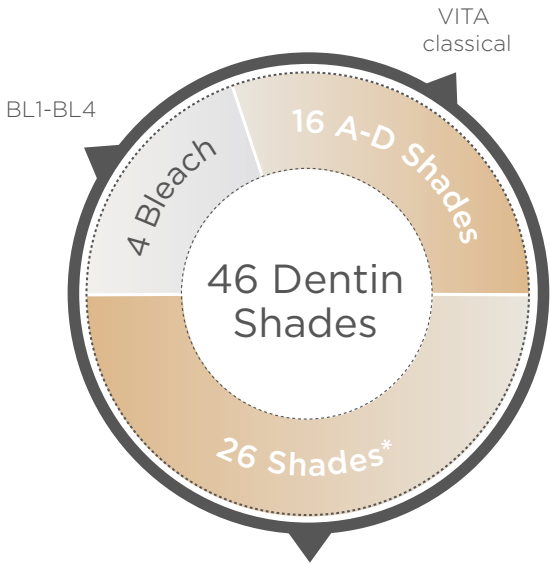

- 6 Enamel (E) shades
- 6 Enamel Opal (EO) shades
- 6 Enamel Effect (EE) colors

+ Add-ons

- 4 Correction (C) shades
- 5 Gingiva (G) shades

Further Advantages

- + Optimized particle size for smooth application and seamless buildup
- + Correction/Add-on porcelain can be applied and fired with glaze/stain porcelain, or after glaze/stain firing

SINGLE VENEERING SYSTEM

For all-ceramic restorations

Compatible with both zirconia and lithium silicate frameworks

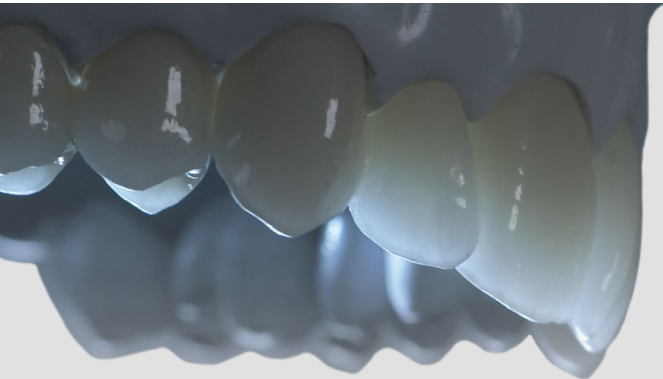

UNIVERSAL FINISHING SYSTEM

For metal-based and all-ceramic restorations

Dentsply Sirona Universal Stains¹ broad compatibility eliminates multiple finishing systems in your lab – learn more at dentsplysirona.com/ceramics

Celtra® Ceram veneering porcelain

Celtra Ceram is a highly versatile, low-fusing veneering system designed exclusively for a broad range of all-ceramic substructures including lithium silicates and zirconia oxides. It is a smart system with expansive capabilities to meet the changing needs of laboratories worldwide.

Versatile concept

- + Smart veneering concept suitable for both aesthetic and production environments utilizing core masses and multiple effect powders for all-ceramic restorations

Premium aesthetics

- + Smart collection of core masses for high efficiency and yet a multitude of highly aesthetic effect porcelains satisfy the most creative minds in your dental laboratory

Consistent performance

- + Shade accurate, stable and forgiveness achieved using a proprietary mineral source with seamless blending to all-ceramic substructures
